

ECCO QUADRAX

Ecco Quadrax offers all benefits to our Ecco 380A combined into a very compact solution for spraying up to 4 different coatings with extremely fast changing. The 4 valves work independently and are opened by robot PLC one after another. Ideal for fast colour changing and highest productivity, without the use of an additional colour changing module.

Net weight 5635g

Maximum paint pressure 200 bar

Min/max. operating pressure 4/7 bar

Connection for spray tip retaining ring M 18x1

Packing / seals Viton / Perflour 128

NEZÁVAZNÁ POPTÁVKA
