

ECCO FLOW PN15

Ecco Flow PN15 is a lubrication free diaphragm pump with non freeze and non stalling air system. The pump has modular design, is easy to maintain and has high air efficiency. The PN15 is a light polypropylene pump (only 4.1 kg) with PTFE diaphragms, suitable for fluids in temperature range 0-66°C.

TECHNICAL DATA

Pressure Ratio	1:1
Capacity lit/min	0-64
Inlet air pressure min/max (bar)	1,3-8,2
Air consumption at 8 bar (lit/min)	0-565 approx
Self-priming	Yes
Dry lift capacity at 6,8 bar	4,5
Size of max pumpable particles (mm)	3,2mm
Air inlet	G 1/4 external
Fluid inlet	G 1/2" internal
Fluid outlet	G 1/2" internal
Adjustable fluid connections	Yes
Weight (kg)	4,1
Housing material	PP
Diaphragm material wet/dry side	PTFE/Geolast
Sealing rings	Nitril
