

POWER COL 20S

Use the fluid pressure regulator to reduce main line pressure, remove pulsations and to maintain the desired fluid pressure to the spray guns. Ecco Power Col has a compact design and high regulation accuracy. It introduces very little shear of the paint, is reliable and requires little maintenance. All wetted parts are made in stainless steel.

TECHNICAL DATA

Max inlet pressure	345 bar
Regulated pressure	30-290 bar
Max flow rate	6 lit/min
Fluid inlet	3/8" BSP
Fluid outlet	3/8" BSP
Gauge port inlet	1/2" BSP
Length	300 mm / 12"
Diameter	160 mm / 6 1/3"

TYPE

ORDERING NUMBER

PowerCol 20S high pressure regulator (no manometer)	8623 0141 20
PowerCol 20S high pressure regulator with manometer	8623 0141 30
