

## ECCO ERGOTUBE LP - LOW PRESSURE

Ecco ERGOTUBE is a unique system to supply air and paint to the spray gun through a combination hose, where the paint hose is placed inside the air hose. This new hose reduces the total weight and twist torque, making the handling of the gun much easier for the painter. Ecco ERGOTUBE can be used for most paint types, like primer, base, top and clear coat. The material in the paint hose reduces the risk of contamination in the final coating of the surface. The paint hose in teflon (FEP as standard in Ø 4-6mm internal) makes flushing easier and reduces the use of solvent.

The special finish on the outer surface of the air hose prevents paint from adhering to it, making cleaning easier. Ecco Ergotube is also available with paint hose in PTFE.

LENGTH (M)	VISCOSITY SIS/DIN4 (SEC)	DIMENSION	ORDERING NUMBER
2	0-50	Air hose inner Ø 10mm/ Paint hose outer Ø 8mm/ inner Ø 6mm	6003 9798 02
3	0-30	Air hose inner Ø 10mm/ Paint hose outer Ø 6mm/ inner Ø 4mm	6003 9796 03
4	0-45	Air hose inner Ø 10mm/ Paint hose outer Ø 8mm/ inner Ø 6mm	6003 9798 04
5	0-30	Air hose inner Ø 10mm/ Paint hose outer Ø 6mm/ inner Ø 4mm	6003 9796 05
6	0-27	Air hose inner Ø 10mm/ Paint hose outer Ø 6mm/ inner Ø 4mm	6003 9796 06
6	0-40	Air hose inner Ø 10mm/ Paint hose outer Ø 8mm/ inner Ø 6mm	6003 9798 06
7	0-25	Air hose inner Ø 10mm/ Paint hose outer Ø 6mm/ inner Ø 4mm	6003 9798 07
8	0-30	Air hose inner Ø 10mm/ Paint hose outer Ø 8mm/ inner Ø 6mm	6003 9798 08
10	0-25	Air hose inner Ø 10mm/ Paint hose outer Ø 8mm/ inner Ø 6mm	6003 9798 10
