

## ECCO 68ASP (PRO ZINC)

Ecco 68ASP is uniquely developed for spraying Zinc based primer in a variety of environments.

This type of primer adheres instantly to all metal surfaces creating difficulties with conventional spray guns.

To prevent the issue with clogging, all wetted parts in the gun are made of a special plastic to ensure trouble free spraying and easy cleaning.

Features:

- Stable, accurate and durable
- Wetted parts in plastic to prevent zinc build-up in channels and nozzles
- The outside is anodized with a non-stick coating
- Possibility to add external atomization control
- Price competitive

### TECHNICAL DATA

Fluid nozzle	diam 0,3-2,7 mm
Air connection	Ø 10/8 och 8/6mm
Air consumption	max 900 lit/min
Fluid connection	1/4"
Max size (w x h x l)	75 x 75 x 130mm
Weight (gun+base plate)	437 g
