

## BAG FILTER BFS-101

Reliable, high quality stainless steel filter housing with filter bag system. The circulating filter BFS-101, delivered with a 100 micrometer NMO filter bag, is a perfect fit for a medium size circulating system. A range of filters with suitable mesh sizes is available.

### TECHNICAL DATA

Fluid inlet	G 1 inv.
Fluid outlet	G 1 inv.
Max operating pressure	16 bar
Max paint flow	6 m3 per tim
Internal volume	3 lit.
Weight	8 kg
Filter size	0,09 m2
Total length	345 mm

### TYPE

### ORD. NO.

Ecco BFS-101 complete bag filter unit incl.100 um bag filter	8613 2260 30
