

SPRAY PACK PF 214S-AA

Spray Pack 214S-AA is a complete set containing all required parts for quick and easy start up. The hose has a standard length of 10m, but can be adapted to customer's specific needs. This Spray pack includes the air assisted pump unit Power Flow 214S-AA, hoses and the EccoMix spray gun. It produces a smooth finish and can be used in many different applications. Air assist spraying is versatile since the operator easily can vary both paint volume, paint pressure and spray pattern.
