

ECCO 351

Ecco 351 is the suction feed manual spray gun with 1,0 lit suction cup and gun body in anodized aluminium. The inside paint channels are designed for easy cleaning, saving time and solvent when changing colour. Both the amount of air and paint, as well as the spray pattern can be adjusted on the gun. The Ecco 35 is available in conventional or HVLP version and can be equipped with a wide range of fluid nozzles, air caps and needles to ensure an optimized application for all standard paint types.

TECHNICAL DATA (CONVENTIONAL)

Paint nozzles	0,2-2,7mm
Paint connection	G 3/8
Air connection	G 1/4
Air pressure max (bar)	7
Air consumption	250-700 lit/min
Weight	860g
