

ECCO FLOW CT15

Ecco Flow CT15 is a lubrication free diaphragm pump with non freeze and non stalling air system. The pump has a modular design, is easy to maintain and has high air efficiency. The CT15 is a conductive plastic pump with diaphragms in PTFE, suitable for many pumpable fluids in temperature range 0-66°C.

TECHNICAL DATA

Pressure Ratio	1:1
Capacity lit/min	0-64
Inlet air pressure min/max (bar)	1,3-8,2
Air consumption at 8 bar (lit/min)	0-565 approx
Self-priming	Yes
Dry lift capacity at 6,8 bar	3,2
Size of max pumpable particles (mm)	3,2mm
Air inlet	G 1/4 external
Fluid inlet	G 1/2' internal
Fluid outlet	G 1/2' internal
Adjustable fluid connections	Yes
Weight (kg)	5,4
Housing material	Nylon
Diaphragm material wet/dry side	PTFE/Santopren
Sealing rings	PTFE
