

ECCO 652S

Ecco 652S is the manual HVLP gun where the paint is fed from a gravity cup. This paint cup named G5 is made in plastic and contains 0,5 litre paint. The light and small paint cup makes cleaning and paint changing easy.

For abrasive and water borne paint types always use a gun with both air cap, fluid nozzle and needle in tungsten carbide.

TECHNICAL DATA

Paint nozzles	0,9-2,7 mm
Air connection	G 1/4
Air pressure, recommended (bar)	3
Air consumption	260 lit/min
Weight	653 g

PAINT NOZZLE Ø MM	AIR CAP	ORDERING NUMBER	VISCOSITY SIS/DIN4 (SEC)
0,9	6509	8611 6542 09	5-15
