

SPRAY PACK 313E

This Ecco Feed Spray Pack is using a 2 litre PRC pressure cup to feed the paint up to the Ecco 35 spray gun. This Spray Pack is also available with an Ecco 40S or Ecco 65S spray gun. The combination hose Ecco Ergotube, for both air and paint, is light and smooth for best ergonomics. The outer surface of the hose is made in special material preventing paint from adhering to it, making cleaning easier.
